# Installation

## **PK Reports App**

The PK Reports App is downloaded from the Apple store directly onto an iPad or iPhone.

The app connects directly to Krunch Reports on the Prism system.

There is no other installation.

#### Licensing

Licensing is by Prism user ID and number of devices (iPads or iPhones).

#### **Internet Access**

Note: The iPad or iPhone must have Internet access to validate licensing.

#### Operation

#### Network

The PK Reports app connects to the system running Krunch reports using the IP address of that system.

If the app will only be used on the local network, then the local IP address can be used.

If the app will be used from the Internet, then port forwarding must be set up on the router so that port 8090 is forwarded to the Krunch system.

#### Settings

Start the App. The initial screen will be displayed:

6:05 PM Sun Feb 2

🗢 Not Charging 🔳

PK Reports

Settings Have Not Been Entered

Settings

Touch Settings to open Settings on the iPad or iPhone. (This can also be done manually):

PK Re	eports 6:19 PM Sun Feb 2		😨 Not Charging 🔳
	Settings	PK Reports	
ш	Grand Plano		
<b>E</b>	Hashi	ALLOW PK REPORTS TO ACCESS	
13	Home Depot	💦 Siri & Search	>
	HomeAway		
hulu	Hulu	PK REPORTS SETTINGS	
×	iMovie	IP Address	
	Keynote	Prism User ID	
K	Kindle		
HEE	Lifetime		
	Netflix		
	NRHA events		
	Numbers		
$\$	Pages		
Θ	Paris Metro		
P. Reports	PK Reports		
video	Prime Video		
REMOTE	Remote		
1	Scientology TV		

Enter the IP address of the system with Krunch reports installed.

Enter the Prism user ID.

Return to PK Reports.

# Activating the Device

Once the IP address and Prism user ID have been entered, the iPad or iPhone can be activated:

4:59 PM Sun Feb 2 🗢 Not Charging 🔳 PK Reports Device Has Not Been Activated Activate

Touch Activate to activate the device.

In order to activate the device, a valid license must be available and there must be an available device based on the licensed device count.

### Reports

Once activated, Krunch is displayed whenever the app is opened:

# Deactivating a Device

To deactivate a device, open Settings on the iPad or iPhone, locate PK Reports and remove the IP Address and User ID.

Start the PK Reports app. The initial screen will be:

4:59 PM	I Sun Feb 2 ♥	Not Charging
	PK Reports	
	·	
	Settings Have Been Removed - Deactivate Device?	
	Settings have been hemoved - beactivate bevice:	
	Deactivate	

Touch Deactivate to deactivate the device.
